1.MOMENTUM

1. **It Helps in showing the direction of the market.**

When the blue line (momentum) points down it means that the market is falling and you should trade a FALL.

When the blue line (momentum) points up , it means that the market is RISING and you should trade a RISE

MACD

- **It helps in showing the entry points in RISE FALL MARKET**

ENTRY POINT FOR RISE MARKET

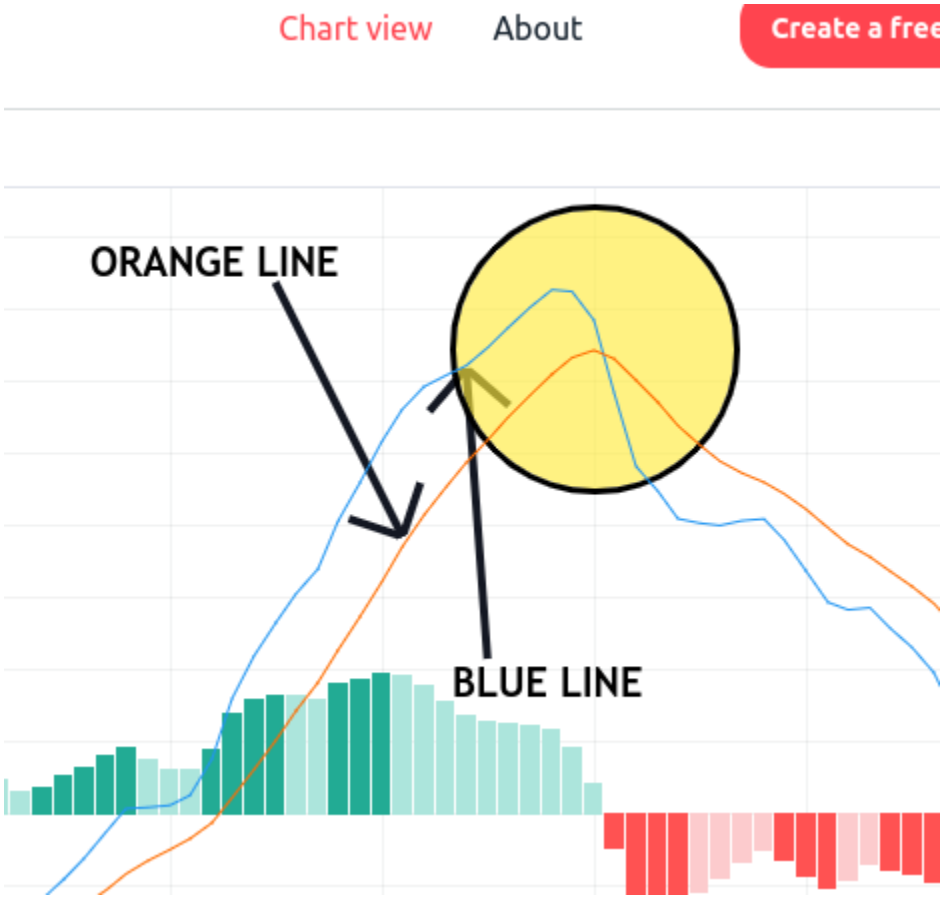

When the blue line crosses the orange line and it goes up , wait the two lines to start to separate a bit then Trade RISE.

MKOREAN WWN
0781 942 298

Don't trade RISE immediately after the two lines crosses , just give it a time first for the two lines to start separating.

ENTRY POINT FOR FALL MARKET

When the blue line crosses the orange line and it goes DOWN , wait the two lines to start to separate a bit then Trade FALL.

Don't trade FALL immediately after the two lines crosses , just give it a time first for the two lines to start separating.

THE END
