Over 2 strategy

Manual using a smart trader

Using the volatility index only, set the following

Duration-1 tick

Last digit prediction-2

Stake -any

Steps

MENTOR BRIAN

- Go to the last digit starts 0,1 should be below 10
- From there go that place infront of the over and under box that shows the trend with number eg

Consider these numbers wait for small numbers eg 0,1,2, to appear either 22,12,20, or 31,41,or 52 any as long as the last last digit Is 2.

Print dollars

Over 2 when trading manually using circles

Steps

Using the volatility index only

For most appearing number (green bar) and last appearing (redbar)should be on the winning side.ie 3,4,5,,6,7,8,9,0.

MENTOR BRIAN

Entry point;

When the cursor touches 2 or 0 trade over 2 immediately.

Remember do not over trade.
